

CAMWEAR® FOOD PANS

Store, transport and serve all in one pan. Camwear food pans are made from durable Camwear that will not crack, bend or dent. Precisely designed to Gastronorm GN specifications, with a large radius bottom to reduce food waste. At half the cost of stainless steel, Camwear pans keep contents as cold as metal pans with less condensation. Pans stack neatly without wedging or sticking.

Colors: Clear (135), White (148), Black (110). Except 18CW and 28CW available in Clear (135) only.

Camwear pans are not recommended for steam table or microwave use. See X-Pan® and H-Pan™ section for high heat applications.

Colander Pan is covered by U.S. Patent D 528,376.

Uniform 1/2" (1,27 cm) flange ensures a smooth fit in prep tables and food bars.

Virtually unbreakable Camwear withstands temperatures from -40° to 210°F (-40° to 99°C).

Molded-in graduations in standard & metric for easy inventory management.

Won't react with food; minimizes potentially hazardous chemical or acidic reaction.

Non-stick smooth interior surface increases yields and promotes easy cleaning.

Textured bottoms resist scratching.

Cold Test

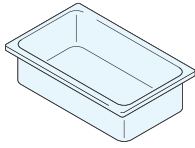

Tests prove Camwear food pans keep products as cold as stainless steel. Stainless may feel colder, but as these test results demonstrate, Camwear food pans keep products just as cold for just as long.
