

The Process

DINNERWARE FROM FALLEN LEAVES™

BORROWED FROM THE EARTH AND RETURNED

VerTerra palm dinnerware is made in our network of factories in India, where employees work in a safe environment, receive fair wages, and access to health care. The production process is simple and transparent: after collecting fallen leaves that would normally be burned, we apply steam, heat and pressure to transform the leaves into dinnerware that will compost naturally in two months.

Our priority is to be true to the Earth. We are always developing new ways to make the entire process - from gathering materials, to delivering our palm leaf dinnerware to your party - more Eco-friendly.

The first step in making our leaf dinnerware is to collect fallen leaves from plantations. Trees are not cut down during this process. The leaves are then brought into the factory, where they are sprayed with high-pressure water, steamed and UV-sterilized. As a creation of only two products, palm leaves and water, our palm leaf dinnerware is completely non-toxic and chemical free. Our dinnerware can withstand up to 2 minutes in the microwave on a high heat setting or up to 45 minutes in the oven at 350° F, as long as they are at least 6" from the heat source. Over 80% of the water used in this process is recaptured and reused. In fact, the whole manufacturing processes only requires 10% of the energy used in recycling. No chemicals, lacquers, glues, bonding agents, or other toxins are added to our compostable products, which keeps your meal and our Earth free from harm.

01

Gather Leaves

Fallen Palm leaves are collected and brought to our factories in India.

02

Steam & Press

The leaves are then steamed + sterilized then they are pressed into shape.

03

Heat

The palm leaves are then heated to finish the product. They will now retain their shape.

04

Use & Enjoy

The products are ready to display culinary creations + inspire new uses.

05

Compost

The Products are BPI Certified compostable in an industrial facility or can be composted at home.

06

Back to the Earth

Soil containing VerTerra compost enhances plant growth by 15%.

WHY YOU'LL LOVE DINNERWARE FROM FALLEN LEAVES™

All-natural product made from only fallen palm leaves, steam, heat and pressure

Fallen palm leaves would otherwise be burned as waste

Certified compostable in fewer than 60 days in an industrial facility

No heat transference

BPI-certified 100% compostable

Palm leaf becoming VerTerra Dinnerware

Bowls

DINNERWARE FROM FALLEN LEAVES™

The possibilities are endless with our range of bowls. The smaller sizes are the industry standard for tastings. The larger sizes elegantly display main dishes, entrées, salads, and more! Our dinnerware is designed to be able to handle hot and cold food/liquids, and oils. Pat. and Pat. Pending: www.verterra.com/pages/patent
