Easy Shield™ Face Shield

Enhance employee safety with a valuable second barrier of protection over face masks.*

Greater Health & Safety Protection

- Serves as a clear, virtually invisible, guard to improve health & safety, yet maximize visibility.
- Material is an effective barrier against droplets—a great forward layer of protection over cloth face masks.
- Designed to widen at the base for optimum coverage around the nose and mouth.

Durable, but Comfortable

- Manufactured of a highly flexible, but impermeable polyethylene material.†
- Lightweight, with a foam forehead and one-size-fits-all elastic headband that wears comfortably without stress or fatigue on the user, even for extended periods of time.
- Easy to clean (with proper disinfectant products).

* Not intended for medical use
† Amorphous polyethylene terephthalate (APET)

Buy once. Buy the original.
Always look for this mark of quality

Suggested Uses

Use in tandem with a mouth-and-nose covering to achieve a valuable two-layer guard against disease transmission—especially in situations when social distancing isn't possible, such as curbside or drive-thru customer services or in tight coworking spaces.

General Specifications

Model	Description	Dimensions (w x d x h)
69925-10	Face Shield (10-pk)	12" x 1 1/2" x 8 3/4"
