

## 8792 Gourmet 1000™ Dual Automatic Airpot Coffee Brewer (with Hot Water Faucet)

Gourmet 1000™ Dual Airpot brewers offer volume brewing, proper extraction and holding capacity. Traditional electro-mechanical controls and a high level of component compatibility mean many years of dependable, quality brewing. These uniquely designed units eliminate flow control problems and resist clogging in adverse water conditions. Coffee is brewed into an airpot for easy transport to remote serving areas where the coffee will be preserved for optimal temperature and taste.

Model 8792  
shown with optional 7759

### Features

- **Dual brewer** will accommodate demand fluctuations and brewing variables.
- A high level of **commonality of parts** with other Bloomfield brewers will significantly reduce the inventory of spare parts required to service many body styles.
- Exclusive design provides **easy access** to components for quick, efficient service.
- **Water volume adjustments** can be made with ease; no tools required and no panels to remove.
- **Ready-to Brew light** indicated the proper water temperature to help eliminate guesswork in brewing.
- **Built-in pour over feature** provides flexibility of installation.
- **Premium quality thermostat** has a stainless steel bulb that recognizes water temperature extremely accurately and cycles less frequently.
- **Superior sprayhead design** spreads water over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full rich essence of every bean.

- **Unique water valve with built-in flow control** assures consistent operation for inlet water pressures between 20 - 80 p.s.i..
- **Independent front mounted hot water faucet** allows drawing of hot water without affecting coffee taste or brew cycle.
- **One-piece drawn stainless steel water tank** has a superior design for extended life.
- **Rugged base rails** provide stability and strength while minimizing brewer height, and provides easy placement of airpot.
- High quality easy to clean **stainless steel construction**.
- Convenient tank heater on/off switches located on rear of unit provide energy saving options.

### Accessories

Bloomfield offers a full line of airpots, thermal servers and coffee grinders.

DUAL AUTOMATIC AIRPOT COFFEE BREWER

# BLOOMFIELD

**MODELS  
8792**

**DIMENSIONS:** INCH (MM)
