Helios™ UV Knife Sterilizer Cabinet

Our patented KSUV-18 Knife Sterilizer Cabinet provides superior sterilization compared to other methods or products using magnetic bars or metal racks to secure the knives. Our exclusive non-filtering clear slotted knife holder and special mirrored interior walls eliminate shadows on knife surfaces within the cabinet that could prevent complete sterilization. The easy-to operate mechanical timer can be set for up to 15 minutes, but the KSUV-18 will safely sterilize your knives in as little as 3 minutes with 99% efficacy**. It's like a SPF-99 (Sterilization Protection Factor) for your knives.
