- ▶ Seven colors of storage and prep tools to help reduce cross-contamination in your kitchen.

WHY COLOR CODE?

There is a simple and effective way to combat these staggering statistics on foodborne illnesses. Preventing cross-contamination is critical for keeping food safe.¹ The most basic way to avoid cross-contamination is to keep raw and ready-to-eat food separated and to use dedicated, colored cutting boards and utensils when handling them.¹ Color-coding your food storage and preparation tools promotes safety and sanitation in the kitchen.

Available in seven colors, the Color-Coded Foodservice System is easy to implement and promotes safe habits to help keep customers safe.

SAFELY MANAGE YOUR FLOW OF FOOD

- ▶ From storage to prep tools, you'll have what you need to help minimize cross-contamination through four stages of the flow of food.

COLOR-CODED SOLUTIONS

STORAGE

- Keep your food separated with square and/or round containers with colored lids.

PREP

- From picking up raw meat with tongs, to chopping vegetables on a cutting board, to stirring sauce with high-heat spatulas; dedicated color-coded utensils help prevent mix-ups and promote safety during food prep.

COOKING & SERVING

- Use high-heat spatulas while cooking, and use color coded tongs to serve the appropriate food—cooking or serving, make sure you've got the right tools for every job.

COMPLIANCE IN FULL COLOR

- Color-coding assists with the USDA's Hazard Analysis and Critical Control Point (HACCP) compliance. Color-coded storage containers and prep tools make it easier for kitchen staff to identify the equipment that should be used with each food item, which eases the learning curve for new staff in busy or high-turnover kitchens.

COLOR KITS

COLOR UP YOUR KITCHEN

Interested in implementing a color-coded solution? Get started by choosing one of the eight color-coded kits that fits your unique needs. Kits come with everything you need to start a color-coding system, including an implementation guide and poster to train your kitchen staff.

▶ 1-COLOR KITS

▶ CUTTING BOARD KIT

CUTTING BOARD KIT INCLUDES:	
PRODUCT	QUANTITY
CUTTING BOARDS	1 IN EACH COLOR, 7 TOTAL

- ▶ Use color-coded storage containers and lids to keep uncooked foods like raw meat separate from ready-to-eat foods.

- ▶ Help keep food safe and organized by removing food from cardboard boxes and placing it in color-coded containers and lids.

SQUARE CONTAINERS & LIDS

FEATURES AND BENEFITS

- Available in break-resistant, crystal-clear material for high visibility
- Durable handles for easy transport and drain holes for proper washing and drying
- Temperature range: -40°F to 212°F (-40°C to 100°C)
- Stackable, available in three sizes (4 QT, 8 QT, 12 QT)
- NSF-certified, commercial dishwasher safe

SQUARE CONTAINER LIDS

- Leak-resistant, snap-tight lids
- Corner pull tabs for easy lid removal

ROUND CONTAINERS & LIDS

FEATURES AND BENEFITS

- Available in semi-clear polypropylene
- Temperature range: 35°F to 150°F (2°C to 66°C)
- Stackable, available in three sizes (4 QT, 8 QT, 12 QT)
- NSF-certified, commercial dishwasher safe

ROUND CONTAINER LIDS

- Secure, leak-resistant lids
- Positive-lock lids (double-wall seal) with pull tabs

- ▶ While sautéing vegetables or stirring a sauce, the high-heat color-coded spatulas are a necessity for every kitchen.

- ▶ Help protect patrons from foodborne illnesses with color-coded tongs—use them in food prep or while serving.

HIGH-HEAT SPATULAS

FEATURES AND BENEFITS

- Silicone blade and nylon handle resist temperatures up to 500°F/260°C
- Clean-Rest™ feature keeps the blade off of countertops
- Available in 9.5" and 13.5" lengths
- Notched, stain-resistant scraper blades cleanly scrape sides of pans without scratching them
- NSF-certified, commercial dishwasher safe

TONGS

FEATURES AND BENEFITS

- Colored rubber grips on handles enable better control
- 22 gauge stainless steel
- Scalloped-edge design makes gripping food easy
- Commercial dishwasher safe

► Dedicated color-coded cutting boards help reduce risk of cross-contamination during food prep.

CUTTING BOARDS & RACK

FEATURES AND BENEFITS

- Durable high-density polyethylene
- Features a corner hanging hole for easy drying or carrying
- Resists stains and maintains their shape
- Stainless steel rack available for convenient storage
- NSF certified, commercial dishwasher safe
