

2022-2023 Catalog

ABOUT US

The formation of The Ojeda Group began in 1948 through a service business owned by Mr. Edel Ojeda Sr. Through the knowledge gained in his service work, Mr. Ojeda began building industrial kitchen equipment and by 1968 he started producing freezers and refrigerators in the masses; this marked the origin of Refrigeración Ojeda. With over 70 years in the refrigeration industry, Refrigeración Ojeda has grown into a multi divisional empire; The Ojeda Group.

The Ojeda Group consists of 5 companies; Ojeda Refrigeración, Ojeda USA, Ojeda Central America, FrigoPanel, and IsoDoors. Ojeda Group currently covers the entire US, Canada, Mexico and Central America. With over 700 employees, the company continues to grow. The Ojeda Group has remained a family owned company, now operated by the next generation of Ojedas.

Ojeda U.S.A.: Since opening in 2005, Ojeda USA has grown tremendously over the years. Located in Spartanburg, SC Ojeda USA houses a stocked warehouse of the entire Ojeda USA product line. Ojeda USA maintains a strong sales team and easy to reach service department for any technical needs.

Production: Ojeda's main manufacturing plant is located in Granjas Mexico, just a couple of miles from downtown Mexico City.

Ojeda specializes in manufacturing commercial and industrial equipment, with our flagship product being novelty freezers and open air display cases. Ojeda is the leader in the ice cream sector of Mexico.

NIGHT CURTAIN

Standard pull down night curtain allows temperature to be maintained during periods of inactivity.

CARE FREE CONDENSER

The finless spiral condenser design prevents dust/dirt buildup allowing maximum long term efficiency.

LED LIGHTING

LED lighting provides long lasting energy efficient lighting with minimal heat output.
