

Warewashing Systems

TempStar® VER

Ventless High Temperature Sanitizing Door-type with Energy Recovery

- Ventless: Does not require a hood
- Energy Recovery System collects the hot water vapor inside the machine and uses it to preheat the incoming rinse water
- Operates on a single cold water connection
- Built-in booster heater with Sani-Sure™ final rinse system ensures proper rinse temperature
- Three selectable timed cycles for warewashing flexibility and performance
- Specially designed stainless steel nozzles provide superior cleaning action
- Door interlock comes standard
- Pressure regulator provided
- Delime switch
- Field convertible from straight through to corner and vice versa (kit required)
- Available in standard or tall chamber height
- Durable stainless steel construction

Ventless TempStar models do not require a hood and they provide Clean the First Time® performance!
