

Stainless Steel Indoor Trash Can 50 Gallon

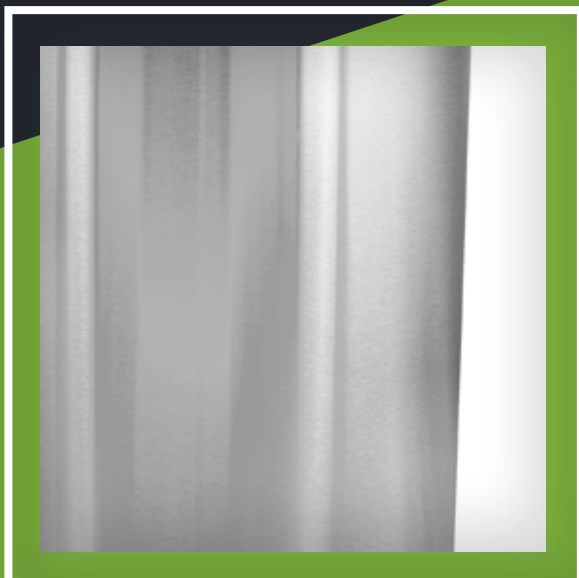

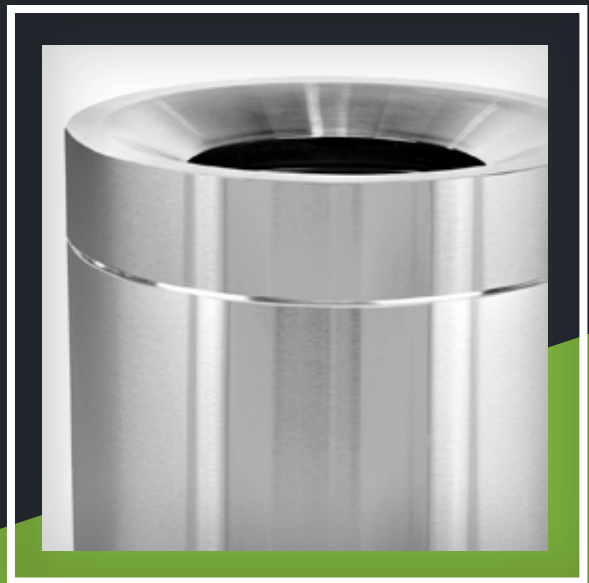

Do you know what's so great about Stainless Steel? It's got that aesthetic appeal that looks great anywhere. On top of that this godly material is corrosion resistant, fire resistant, and impact resistant - making it the perfect push for heavy-duty commercial equipment. Alpine Industries has rolled up all of that power into a trash can that can handle up to 50 Gallons in waste capacity, making it a must-have for high traffic areas and turning wear and tear into a thing of the past.
