For Indigo® NXT Ice Machines

Top Air Discharge Kit

Models

- K-00379
 K-00438
 K-00439
 K-00449
 K-00481B

Pictured, an iT0450 with Top Air Discharge kit.

Kit includes:

- A) Two solid stainless steel side panels
- B) One louvered stainless steel top

Standard Features

- Transfers air discharge from the sides of the machine to the top by having the louvered panel on the top of the machine rather than the sides
- Re-directs the hot air from the ice machine toward the ceiling rather than directly into the working kitchen environment
- Ideal for locations where space on side of the machine is less than 8" for Indigo NXT Series 0450-1200 or 12" for Indigo NXT Series 0420, 0620, 1500 and 1900.
- Top air discharge kit is available for iT0420, iT0620, iT0450, iT0500, iF0600, iF0900, iF1200, iT1500 and iT1900
- No hardware needed

Installation Instructions

Disconnect electric power to the ice machine (and dispenser if applicable) at the electric switch box before proceeding.

1. Open front door
2. Remove top panel
3. Remove louvered left and right side panels
4. Install new solid left and right side panels
5. Install louvered top panel
6. Secure front door
7. Apply power

Ice Machine	Height	Width	Kit
Indigo NXT 0420 and 0620	21.5"	22"	K-00438
