Cadco BAKERLUX™ OVENS QUICK CLEANING GUIDE

WARNING: Before starting any maintenance or cleaning operation, you must disconnect the electrical power supply and wait for your oven to cool down.

GENERAL

1. Wipe up any spills as they occur (after the oven has cooled down for 10-15 minutes.)
2. Never clean the oven cavity with acids, abrasives or aggressive detergents.
3. Never use a spray of water to clean the outside of your oven. This may damage the electrical components and void your warranty.

DAILY CLEANING

1. **Unplug oven and let it cool down for 10-15 minutes. Door glass must be completely cool before cleaning.**
2. Clean the oven cavity and oven door gasket using only proper products (degreaser, damp cloth.)
3. Never clean the oven cavity with acids, abrasives, or aggressive detergents.
4. Pull out and clean oven side racks and wire shelves separately, then replace when done.
5. For heavily soiled areas, let degreaser sit to penetrate before wiping with damp cloth or scrub pad.
6. Wipe door handle, door glass (inner and outer), and oven control panel using only proper products (detergent, damp cloth.)
7. Wipe dry after each cleaning process.

WEEKLY CLEANING

1. Follow protocol for Daily Cleaning.
2. Remove and clean oven door gasket
   - Pull gasket out of the channel.
   - Clean with detergent & water or dishwasher.
   - Dry and let sit.
   - To replace after cleaning, push back into channel around oven door.
3. Clean the outside of the oven using only proper products (degreaser, damp cloth.)
4. Never clean the oven with acids, abrasives, or aggressive detergents.
5. Wipe dry after each cleaning process.

CLEANING THE OVEN DOOR GLASS

Door glass must be completely cool before cleaning.
*Clean each door glass using only proper products (detergent, damp cloth or sponge, &/or Scotchbrite pad.) Rinse glass and dry it completely.

FOR TOP-OPENING DOORS:

1. Open oven door fully.

2. Clean back of outer door glass & front of inner door glass.*

3. Clean back of inner door glass.*

4. Close door & clean front of outer door glass.*

FOR SIDE-OPENING DOORS:

1. Open door fully. Depress glass holder clips on top & bottom of inside door, & swing open inner door glass.

2. Clean back of outer door glass & front of inner door glass.*

3. Swing inner door glass forward until top & bottom glass holder clips click & hold glass. Clean back of inner door glass.*
