

Specialty Warmers Dipping Warmers

SPECIFICATION SHEET

FAST FACTS

Dipping Warmers add variety and value to any menu with dipped cones and other treats while also being built for convenience with a hinged lid and flexibility on what food containers can be used with the unit

APPLICATIONS

- Dip ice cream cones, fruits, pretzels and other treats to add flavor variety
- Keeps up to three flavors of cone dip warm all day
- Perfect for LTO flavors and menu items

DETAILS

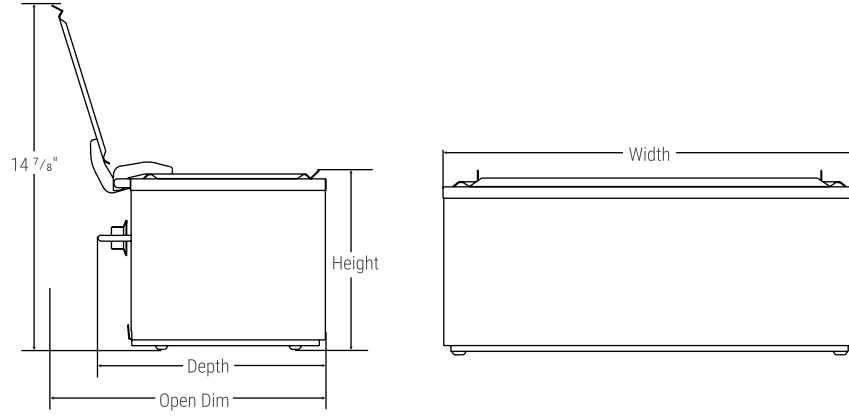

- Increase margins and add variety to your dessert selection – coat treats with up to three flavors
- Hinged lid stays open for dipping convenience
- Flange keeps cone dip container from moving and prevents dip from dripping
- Low-temp heating element eliminates burning – no waterbath needed

Time to layer on the goodness.

DIPPING WARMER MODELS: DI-1, DI-2, & DI-3

Server Dipping Warmer models DI-1, DI-2, and DI-3 are constructed of stainless steel with a hinged lid that stays open while dipping and removable top and bottom panels. The top features a flange to hold cone dip in place and prevent dripping into the unit. A tubular heating element is controlled by an adjustable thermostat and provides heat through natural convection. Temperatures range from ambient to 150°F (66°C). Capacity of #10 manufacturer cans or 3 qt stainless steel jars (not included) indicated by the number following the model. Plug is NEMA 5-15P with 72" cord. NSF listed. Two-year warranty.
