

PUMP PARTS

SAFFTY

According to food and safety regulations, most foods must be stored and/or served at certain temperatures or they could become hazardous. Check with local food and safety regulators for specific guidelines.

Be aware of the product you are serving and the temperature the product is required to maintain. Server Products, Inc. cannot be responsible for the serving of potentially hazardous product.

IMPORTANT

Clean, rinse, sanitize, and dry parts daily or regularly to comply with local sanitization requirements.

NSF International lists this pump as "Not acceptable for dispensing potentially hazardous foods."

Pumps 80090 & 81660 are NSF listed as part of a complete unit.

PUMP CLEANING

all pump surfaces with hot water.

Place lower end of pump into container of hot water and operate pump until all remaining product is expelled and only hot water is discharged.

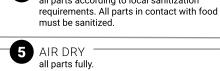

all washable parts with soap and hot water. (See DISASSEMBLY on page 5.)

USE SUPPLIED BRUSH

to thoroughly clean inside discharge tube and any confined areas.

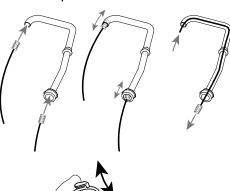

SANITIZE all parts according to local sanitization

CLEAN-IN-PLACE procedure for pumps

CLEAN

- Pump out all (if any) remaining food product from inside pump body.
- · Wash and rinse off outside of pump body.
- Flush out and rinse inside of pump.
- Place lower end of pump into container full of water and operate pump until all (if any) remaining product is expelled and only warm water flows from discharge tube.
- Mix 1 tsp (5 mL) of dishwashing detergent with 1 quart (.95 L) of hot tap water (approximately 110°F /43°C).
- Place lower end of pump into cleaning mixture. Pump until all cleaning mixture is expelled.

RINSE

 Place lower end of pump into 2 cups (.5 L) of hot tap water (approximately 110°F /43°C) and pump until all tap water is expelled.

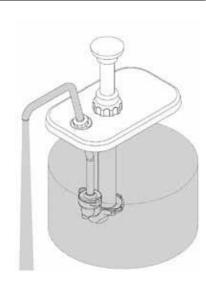

SANITIZE

- Mix one 1 oz (30 mL) packet of KAY-5 Sanitizer/Cleaner (EPA REG No. 5389-15) with 2.5 gallons (9.5 L) of tap water (approximately room temperature).
- Place lower end of pump into this sanitizing mixture and repeatedly operate pump until 1 quart (.95 L) sanitizing mixture is pumped through pump.

RINSE

Place lower end of pump into 1 cup (24 L) of hot tap water (approximately 110°F /43°C) and pump until all tap water is expelled.

CARE OF STAINLESS STEEL

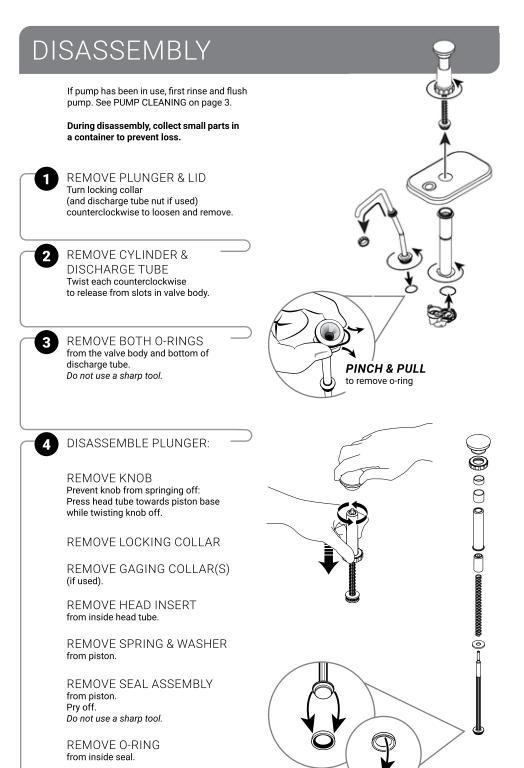

This durable pump includes stainless steel components.

If you notice corrosion beginning on any stainless steel surface, you may need to change the cleansing agent, sanitizing agent, or the cleaning procedures you are using.

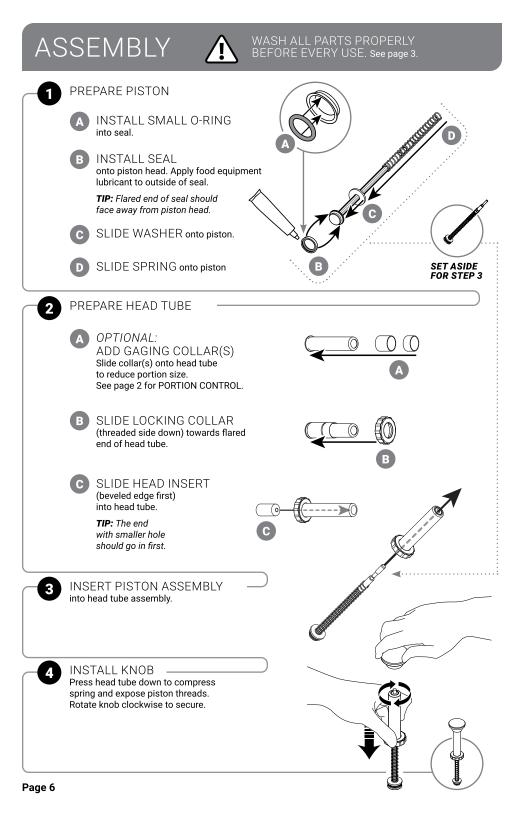

• A mildly abrasive nylon or brass brush may be used to remove any stubborn deposits.

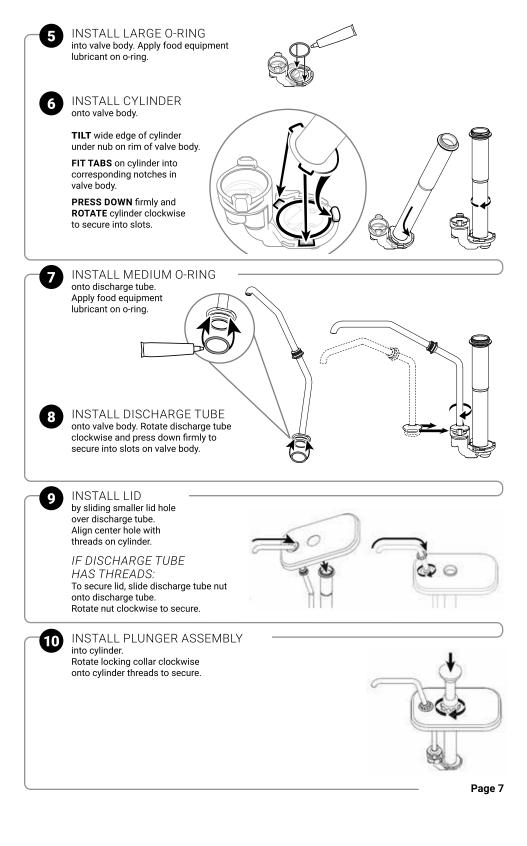

- Fully rinsing and drying all parts can help prevent corrosion. Elements and minerals in tap water can accumulate on stainless steel parts and create corrosion.
- Do not use abrasive, caustic or ammonia based cleansers.
- Do not use products containing acids, alkalines, chlorine, or salt. These agents can corrode stainless steel.
- Do not use metal scrapers or cleaning pads that could scratch surfaces.

TROUBLESHOOTING

PROBLEMS WITH FLOW OR PORTIONS?

- · Clean pump.
- Food product may be too thick or contain a solid that will not pass through pump.
- If used: Ensure ${\bf gaging\ collar(s)}$ are undamaged and properly installed on head tube.

PLUNGER DOESN'T RETURN TO TOP AFTER DISPENSING?

- Ensure that the **spring** is functional. Replace broken spring if necessary.
- Ensure that the washer is installed between the spring and piston head.

FOOD PRODUCT OOZES OUT AROUND LOCKING COLLAR?

• Ensure **seal** is properly installed on piston. **TIP:** Seal has a slight taper. Install with flat side towards

top, flared side down.

PUMP DRIPS?

- $\bullet \ \, \textbf{Clean discharge tube} \ \, \text{with supplied brush}.$
- Inspect all o-rings. Replace if damaged.
- Food product may be too thin. Visit www.Server-Products.com for more tips.

SERVER PRODUCTS LIMITED WARRANTY

This Server product is backed by a two-year limited warranty against defects in materials and workmanship. See <u>Server-Products.com</u> for details.

GENERAL SERVICE, REPAIR OR RETURNS

Before sending any item to Server Products for service, repair, or return, contact Server Products customer service to request a ${\bf Return\ Authorization}$ Number. Merchandise must be sent to Server Products with this number. Service is extremely prompt. Typically, units are repaired and ship out within 48 hours of receipt.

Merchandise being returned for credit must be in new and unused condition and not more than 90 days old and will be subject to a 20% restocking charge.
