Topping Warmer Advantage™ Topping Warmer

SPECIFICATION SHEET

FAST FACTS

The Advantage™ topping warmer dispenses fudge or caramel from a 96 oz pouch with virtually no mess, product breakdown or waste for a quality product from the first serving to the last.

APPLICATION

- High-volume operations looking to minimize downtime during changeouts
- Self-serve dessert stations; tamper-resistant topping brings peace of mind

DETAILS

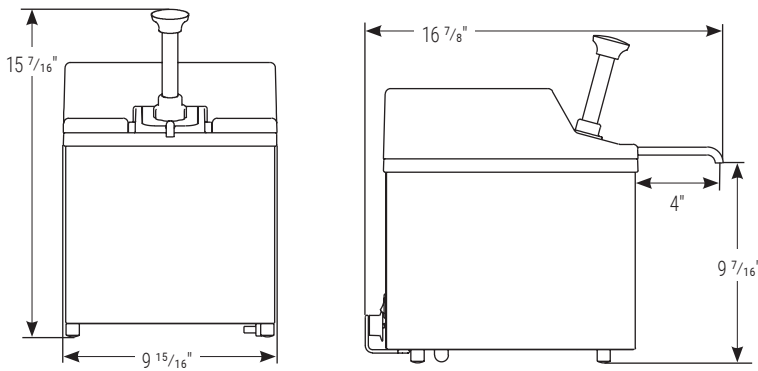

- Closed, sanitary system dispenses from one pouch while warming a second to serving temperature
- Outside of pump remains clean using pouched product
- Excellent evacuation at 96%
- 1 oz maximum portion, adjustable in 1/8 oz increments
- Includes magnetic caramel and fudge merchandising signs

Always topping with one on tap.

ADVANTAGE TOPPING WARMER: FSAF

The model FSAF Advantage™ topping warmer is constructed with a stainless steel enclosure, ABS plastic lid, and high-temperature molded top. Unit dispenses from a unique 96 oz Cryovac® pouch with 16 mm fitment for hassle-free, airtight and sanitary dispensing. Pump dispenses 1 oz max portion, adjustable in 1/8 oz increments. The high-capacity unit allows you to dispense from one heated pouch while warming a second in reserve, eliminating downtime when switching out the empty pouch and waiting for it to warm up. A sealed pouch system also eliminates product degradation and waste for ultimate savings and product consistency. Unit comes with a NEMA 5-15P plug with a 72" cord. NSF listed clean-in-place certified. C-UL-US listed. Two-year warranty.
