

TAYLOR® Professional Cutlery

BLADE:

- Blades are made of German High Carbon Stainless Steel
- One piece precision stamped blade for a lighter weight knife without sacrificing strength
- High quality blade is resistant to staining and pitting
- Excellent edge retention and sharpen-ability

TAYLOR® Professional Cutlery

HANDLE:

- Nylon core for rigidity
- Soft grip non-slip surface won't absorb liquids or bacteria
- Maintains non-slip properties even after hundreds of washes
- Combination of rigidity and ergonomic comfort in the handle equals safer handling

TAYLOR® Professional Cutlery
