Who Should Serve on Riverstone?

The Riverstone collection has broad appeal, complementing a range of décor styles and menu options. Ideal service locales for this fashionable line include:

- Casual and fast casual restaurants
- Hotel dining
- Patio, outdoor and rooftop dining
- Employee dining
- College and university dining
- Business and industry dining

Who Should NOT Serve on Riverstone?

Like all melamine, Riverstone has a few areas where porcelain naturally performs better. In these cases, we recommend using either a mix of porcelain and melamine or porcelain only.

- Plated entrées requiring a steak knife
- Plated entrées requiring oven or salamander finishing
- As always, melamine should not be microwaved

See the **Corona Moon, Pluto, Elegance and Gotas** collections for excellent alternatives in porcelain.
