Expanded from 8 pieces to 33!

Rustic Mill

Rustic Mill harvests the artful simplicity of farm-to-table aesthetics with the perfect country bistro style. Organic textures, cream base with brown speckles and seemingly hand-painted brown rim offer ideal plating for a wide variety of menu items.

With our newly expanded collection, you can now bring the farm-to-table look to your employee-served buffets and banquets as well as all of your tabletop needs. And with melamine's natural durability, you benefit from savings over porcelain 3:1.

Reasons to Love:

- Rustic farm-to-table design with a cream plating area and the perfect country bistro style
- Heavyweight construction blends the benefits of the heft of porcelain with the cost-saving durability of melamine
- Artisanal chef-friendly plating surfaces and style point to artistic food sourcing, prepping and plating
- Fully stocked and ready for immediate shipping and sampling

Complete Portfolio of Standard Sized Dinnerware

As one of our most popular collections, we've expanded Rustic Mill to include all standard sized dinnerware. Now you can choose from several new shapes and sizes, including plates and bowls in rounds, squares or rectangles.

Family Style Dining and Employee-Served Buffet and Banqueting

Brand-new serving platters and large display bowls are perfect for family style dining and employee-served buffets and banqueting, all in Rustic Mill's simple farm-to-table style. Your guests will love the authentic style. You'll love the extensive savings from using durable melamine instead of costly and often fragile porcelain for large serving pieces.

Small Vessels

The right accessories define your style, and your tabletop is no different. We developed new ramekins, monkey dishes and bread, appetizer and dessert plates in both square and round shapes with Rustic Mill's cozy country style. Now you can finesse your presentations with just the right pieces.

Who Should Serve on Rustic Mill?

Nearly any food service operation can benefit from Rustic Mill's gorgeous coupe style, organic texture and the cost savings from using long-lasting melamine:

- Casual and fast casual restaurants
- Hotel dining
- Patio, outdoor and rooftop dining
- Catering, banquet and buffet service
- Employee dining
- College and university dining
- Business and industry dining

Who Should NOT Serve on Rustic Mill?

Melamine is an excellent material for most operations but porcelain performs better in a few areas. If your operation commonly uses the following techniques for cooking and serving, porcelain, or a mix of porcelain and melamine are better choices:

- Plated entrées requiring a steak knife
- Plated entrées requiring oven or salamander finishing
- As always, melamine should not be microwaved
