# Commercial KSBC1B2 Series ENCLOSURE BLENDER

## NSF CERTIFIED FOR COMMERCIAL USE

- **QUIET OPERATION** – NSF Certified, lift up sound enclosure helps reduce noise while blending - ideal for commercial environments where consumers are present. Enclosure is removable, making clean up quick and easy.
- **POWER FOR OPTIMAL PERFORMANCE** – The blender’s powerful 3.0 Peak HP motor\*, 60-oz BPA-free jar, and stainless steel blade deliver optimal performance and taste for every blend.
- **VARIABLE TIMER CONTROL** – Take care of your customers while we take care of your perfect blend with the variable timer control, which ranges from 5-60 seconds. This cycle starts at a low rpm for thorough ingredient incorporation and then ramps up to a high speed.
- **SIMPLE CONTROLS, LESS HASSLE** – Quickly and easily create all of your best blends with the simple controls - high, medium and low speed options, plus pulse and variable timer control.
- **SMOOTH, CONSISTENT TEXTURE** – Unique asymmetric blade design + motor combine to deliver the perfect blend that pulls ingredients into the vortex at four different angles for a smooth, consistent texture.
- **OPTIMAL BLENDING SPEED** – Intelli-Speed® Motor Control senses contents and maintains optimal speed to power through all ingredients.
- **THE RIGHT CAPACITY** – Blend small or large batches with the BPA-Free 60-oz. jar, designed and engineered to further optimize the blender’s performance, leveraging the powerful motor and exclusive KitchenAid blade design. The jar’s beveled corner allows for clean pouring from three sides.
- **MEASURING MADE EASY** – Add ingredients as you blend with a built-in measuring cap.
- **STABLE AND SECURE** – Secure-fitting lid adds extra ease of use and helps to minimize spills when blending. A removable, jar pad holds the blender jar securely to the base to increase stability.

- **EASY CORD REPLACEMENT** – Detachable, 6’ Power Cord for quick and easy replacement, without the need for a service call.
- **LASTING QUALITY** – High-quality, die-cast metal construction of the base, dial, enclosure handle and switches are easy to clean and built to last and withstand heavy use in a commercial environment.
- **EVEN BLENDING** – Thicker ingredients and large quantities sometimes need a little help to blend smoothly. Tamper included to push ingredients down into the blending vortex and ensure even blending.
- **2 YEAR LIMITED WARRANTY\*\*** – 2 Year Limited Hassle-Free Warranty for Blender Base and Enclosure
- **INCLUDES** – Blender base, Blender jar, Enclosure, and Tamper
