

Celebrating 20 Years ...and Counting

Twenty years ago, Epicurean introduced thin, lightweight, and maintenance-free paper composite cutting boards to the industry, after using that same material to build custom-made municipal skateboard parks. One year, our trio of owner/entrepreneurs made cutting boards as holiday gifts from the waste and cut-off generated from the fabrication and building of the skateboard parks...and Epicurean was born in 2003.

We're so proud to be a USA manufacturer celebrating 20th years of bringing functional and thoughtfully designed cutting boards and kitchen utensils to kitchens around the world. Our signature paper composite material is Made in the USA, holds sustainable Forest Stewardship Council (FSC) Certification, and food-safety certifications including NSF Certification, which guarantees products to be easily cleaned and safe for food contact.

Our products withstand the test of time for durability, high manufacturing standards, and transparent third-party certifications.

Thanks for your support of the Epicurean brand and products. The future is looking bright.

- **NSF Certified**
NSF guarantees products to be easily cleaned and safe for food contact. NSF is the organization that tests products to verify they meet public health and safety standards. NSF Certified Epicurean products are marked accordingly.
- **USA Manufactured**
Take pride knowing Epicurean products help support a commitment to sustainable manufacturing and ethical work environments. Our high-quality products are designed in the USA and Made in the USA of U.S. and Imported Parts.
- **Dishwasher Safe**
Save time and effort by washing and sanitizing Epicurean cutting boards and kitchen tools in the dishwasher. For decades, restaurants and home chefs have used this durable material in home and commercial dishwashers.
- **Maintenance Free**
Epicurean products made from paper composite have the look and feel of wood but do not require any of the typical wood board maintenance.

- **Heat Safe**
Keep counters safe from hot pots and pans by using an Epicurean board as trivet. Epicurean tools are safe to use when sautéing and boiling.
**This material should not be used as cookware and it is not microwave safe.*

- **Knife Safe**
Sharp knives make kitchen work safer, faster, and easier. Epicurean boards will help keep knives sharper longer. Expect your kitchen knives to lightly score your Epicurean cutting board—this shows the board is protecting the knives' edges.

- **Lifetime Warranty***
Your Epicurean product is made to meet your complete satisfaction. Your product is warranted to be free from defects in material and workmanship for the lifetime of the product.
**This warranty does not cover normal wear and tear, misuse or failure to follow care instructions.*

Custom Capabilities

Epicurean will work with you to design and manufacture products that fit your needs. We've helped restaurants nationwide, providing them with custom prep surfaces and serving boards which make their production easier and take their presentations to the next level. We offer custom shaped pieces as well as laser engravings of custom logos and graphics.

If you have a custom request, contact your Victorinox sales representative and they will guide you through options, pricing, and minimum order quantities for your idea. Epicurean cutting boards and kitchen utensils are designed and made in the USA of U.S. and Imported parts

Custom Laser Engraving

Epicurean offers you a way to literally make your mark on our products. We can engrave any logo, text, mark, or line art onto any of our inline items.

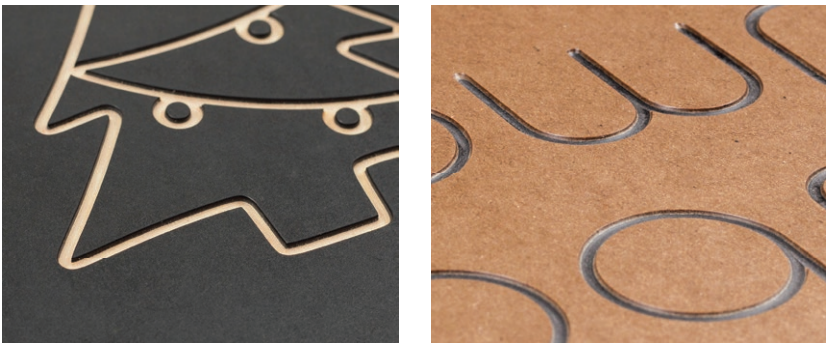

Custom Boards and Shapes

Are you looking for something unique? Maybe just a little different? Something off-menu, so to speak? We can help. Our team of designers, programmers, and CNC operators will work to bring your idea to life.

Custom Etching

Sometimes a laser engraving isn't right. We can route lines, shapes, and other designs into your product to create features with more depth and texture than laser engraving.

Prep Line Solutions

Epicurean PuzzleBoard® products more than meet Health Department requirements for food prep surfaces. In fact, PuzzleBoard® systems exceed these requirements by providing chefs with unsurpassed usability. PuzzleBoard® systems can be custom-made for new prep areas, or they can replace existing, worn-out, one-piece high density polyethylene boards.

Stock PuzzleBoard®

PuzzleBoard® boards are designed to break down and fit into dishwashers, then fit back together to create a surface large enough for commercial prep lines. These dual-sided boards are heat and stain resistant and require no maintenance.

Back of the House Prep

Upgrade your kitchen with these food preparation surfaces. Epicurean Cutting Boards offer the best of both wood and plastic in one functional surface. These food preparation boards are easy on knives, are dual sided, resist staining, heat safe, dishwasher safe, and maintenance free.

Standard Sheet Pan Board

Epicurean's Sheet Pan Boards fit perfectly into standard full-sheet, three-quarter-sheet, and half-sheet pans. Juices and liquids flow away from your food and collect in the pan. All of the boards can be cleaned in any commercial dishwasher.

Prep and Present Pizza Solutions

Tell a full story from prep to plating with an Epicurean pizza peel. Epicurean pizza peels are as durable as they are beautiful. Every one will hold up to the abuse of the prep station and look gorgeous when presented to your diners. With a natural material that only looks better with time, you'll get a brawny tool that will complement the beauty of your pizza.

Commercial Grade Pizza Peels

Epicurean's commercial grade pizza peels are the sanitary solution for pizza and sandwich preparation. These peels double as excellent cutting boards and the beveled edges allow for smooth pickup of cooked or toasted foods. They are dishwasher safe, which makes clean-up a breeze. Their thin profiles and handle-hole make these easy to organize and store.

Round Pizza Boards

Epicurean's round pizza boards offer an alternative for serving round pies. These durable boards will take a beating and keep looking great so you can say goodbye to dented aluminum pizza pans. Our round boards are also a fantastic presentation and serving piece for buffets, breakfast items, pastries, and starters.

Solid Presentation

With Epicurean presentation surfaces, you don't need to be overly careful. They're built tough so you can finish plating, serve, and toss into the dishwasher. Produced from the same materials used for back of the house prep, these serving pieces look beautiful and will stand the test of time.

Flat Bread Board

Our Flat Bread boards allow you to showcase your food in an inviting, professional, and warm way. Like all of the Epicurean Commercial boards, these are attractive, durable, dishwasher safe, and easy to maintain. These boards will fit right into any setting.
